

Mark Ayzenberg, MD - Knee Surgery Checklist

Patient Name: _____ Date: _____

Procedure: () R () L () Bilateral Time: _____ Sx Date: _____

ARTHROSCOPY

- | | |
|--|--|
| () 29870 Diagnostic arthroscopy | () 29877 Chondroplasty (includes MACI Bx, if performed) |
| () 29873 Lateral Release | () 29888 ACL Reconstruction ☐ Autograft: ☐ Allograft: |
| () 29881 Partial Med or Lat Meniscectomy | () 29889 PCL Reconstruction |
| () 29880 Partial Med AND Lat Meniscectomy | () 20680 Removal Hardware (deep) |
| () 27347 Decompression Para-menisal Cyst | () 29874 Removal of Loose Bodies |
| () 29882 Med or Lat Meniscus Repair | () 29879 Microfracture or Abrasion arthroplasty |
| () 29883 Med And Lat Meniscal Repair | () 29885 Drilling for OCD w/ graft +/- fixation |
| () 29884 Lysis of Adhesions | () 29886 Drilling for Intact OCD |
| () 29875 Synovectomy, LTD (Plica) | () 29887 Drilling for Intact OCD + fixation |
| () 29876 Synovectomy, Major (Med/Lat) | () Other: _____ |

OPEN

- | | |
|---|---|
| () 27405 MCL or LCL repair | () 27447 Total Knee Arthroplasty |
| () 27427 MCL or LCL reconstruction | () 27446 Unicompartmental KR |
| () 27420 MPFL reconstruction | () 27438 Patellofemoral Arthroplast |
| () 27418 Fulkerson | () 27535 Tibial plateau ORIF (Unicondylar) |
| () 27385 Quadriceps Repair or debridement | () 27536 Tibial plateau ORIF (Bicondylar) |
| () 27380 Patellar tendon repair or debridement | () 27524 Patellar fracture ORIF |
| () 20902 Bone Graft, major or large | () 27310 Arthrotomy – Drain/FB removal |
| () 27570 MUA | () 27340 Excision bursa |
| () 27457 High Tibial Osteotomy | () 27495 Prophylactic Femur Fx Fixation |
| () 27416 Osteochondral Autograft Implantation | () 24712 MACI Implantation |
| () 27415 Osteochondral ALLOgraft Implant | () Other: _____ |

PRE-OP PREP (Please have meds given and DME fitted in advance of surgery)

Preop Meds: () Chlorhexidine wash x 3 days preop and morning of surgery () Other: _____

DME: () Long Hinged Knee Brace () Ice Machine/Cryocuff () Other: _____

Imaging: () MAKO Protocol Knee CT () Knee MRI non-contrast () Knee X-rays: _____

PT: () Crutch training

SURGERY

Facility: () Inspira MH () Surgical Studios () Vineland ASC () Inspira Vineland () Inspira Elmer

Anesthesia Block: () No () Yes

Intra-op Meds: () Ancef 2gm (3gm for >120kg) (Vanco if allergic to Ancef) () Exparel () TXA () Vanco Powder 1gm

Equipment: () Knee Arthroscopy Trays + SN 4.5mm Blue cannula () ACL Tray () Meniscal Root tray () TKA trays

() Open ACL autograft trays () Ortho major tray () Bone clamp set () Radiolucent Triangles () Shukla screw removal

Implants: () Conmed () Mitek () Arthrex () Smith and Nephew () Stryker () Other: _____

Allografts: () **Always MTF**(Conmed rep) **nonirradiated < 40yo**() Tib. Anterior () Semitendinosus () Achilles () BTB

Position: () Supine () Lateral () Prone

Positioning Equipment: () Lateral knee post () Stryker Leg holder () Bean Bag () Other: _____

() Fracture table w/ () traction () radiolucent flat board () Flat Jackson table

Fluoro: () N () Y: Large C-arm

POST-OP CARE (Please ensure patient has scripts for these before surgery)

Post-op Meds: () Aspirin 325mg daily x 30 days () Pain Medicine: _____ () Other: _____

Post-op X-ray Orders: () Knee Supine AP + Lateral () Other: _____

Post-op Follow-up Appt: () 1 week () 2 weeks () Other: _____

Post-op PT Protocol: _____
